

21st European Intensive Course on Complex Analysis, its Generalizations and Applications

University of Aveiro

Aveiro, April 04 - 08, 2016

The **21st European Intensive Course** will have a total of 12 hours of lecture time, at postgraduate level, introducing topics of high current interest. This year the Intensive Course will be centered around the following topics:

Harmonic Analysis and Inverse Problems

LECTURERS

Hans Feichtinger, NuHAG, Universität Wien, Austria - *A Modern Approach to Fourier Analysis: Foundations of Gabor Analysis*

Lassi Päivärinta, Department of Mathematics, Tallinn University of Technology, Estonia
- *to be announced*

During the course there will be extended coffee breaks in a relaxed environment where lecturers and participants are encouraged to share ideas in a more informal way. Successfully participating students will get a certificate.
