Beatriz Sousa Santos
Department of Electronics, Telecommunications and Informatics
University of Aveiro, Portugal
Scopus Author ID: 7006476948

Beatriz Sousa Santos is Associate Professor in the Department of Electronics, Telecommunications and Informatics (DETI/UA), University of Aveiro, Portugal, and a researcher at the Institute of Electronics an Informatics Engineering of Aveiro (IEETA) and the Intelligent Systems Associate Laboratory (LASI) . Currently her main research interests are Virtual and Augmented Reality and Data and Information Visualization.

Beatriz Sousa Santos got a five year degree in Electronics and Telecommunications Engineering, a PhD in Electrical Engineering, and "Agregação" in Human-Computer Interfaces at the University of Aveiro, Portugal. She has proposed, lectured and coordinated many different courses at BSc, MSc and PhD level, mainly in Visual Computing, and Human-Computer Interaction, but also in other areas. She also lectured and coordinated courses at other public Portuguese Universities (Porto and Coimbra). She supervised MSc dissertations and PhD theses in several programs (mainly in Computer Engineering) and was a member of more than 50 PhD committees at several Universities.

Beatriz Sousa Santos has actively participated in curricular development at the University of Aveiro, namely coordinating the implementation and re-structuring of post-graduation programs in Computer Graphics and Information Systems, the PhD Program in Computer Engineering, and the inter-university (Minho, Aveiro, Porto) PhD Program in Computer Science (MAP-i), as well as proposing, lecturing and coordinating new courses in scientific fields not previously addressed at the University (Visual Computing, Human-Computer Interaction, Virtual and Augmented Reality, and Data and Information Visualization). She is an expert in Informatics for the Portuguese Accreditation Agency (A3ES), member of the SIGGRAPH Education Committee, was a member of Eurographics Executive Committee, and Chair of the Eurographics Education Board.

Beatriz Sousa Santos has recurrently participated in academic management activities as Secretary of the Scientific Council of the University, head of Department, coordinator of the Scientific and Pedagogical Committees of DETI/UA, as well as member of several Councils and Committees. She was the coordinator of the inter-university Doctoral Program in Computer Science (MAP-i), and coordinates the PhD Program in Computer Engineering of UA. She is currently member of the General Council of the University, the highest body of governance and strategic decision-making.

Beatriz Sousa Santos is co-author of more than 190 international indexed publications and about 70 peer reviewed papers in national conferences. Participated in the organization of several (mainly international, e.g. Eurographics, EuroVis and IEEE Virtual Reality) conferences, and served as a Program Committee member of many more international conferences. She has edited special sections in Computers and Graphics, is a member of the editorial board of IEEE Computer Graphics and Applications and co-editor of its Education Department, as well as Associate Editor of Computers and Graphics. Beatriz Sousa Santos is Fellow of the Eurographics Association.
